PROGRAM REPORT

Program Name	"A One Day Seminar on Investor Awareness and The Role of Regulators: A Research Perspective"
Resource Person	Mr. Aaquib Ali
Date of Activity	1-12-2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

The objective of the One Day Seminar on "A One Day Seminar on Investor Awareness and The Role of Regulators: A Research Perspective" is to highlight the significance of investors' awareness in the context of financial markets and to explore the role and responsibilities of regulators in ensuring investor protection. Besides it presents research findings and insights on investors' awareness and regulatory practices and discusses effective communication strategies for educating and empowering investors.

Topics Covered:

1. Importance of Investors' Awareness in Financial Markets
2. Role and Responsibilities of Regulators in Investor Protection
3. Research Findings on Investors' Awareness and Regulatory Practices
4. Effective Communication Strategies for Investor Education
5. Empowering Investors through Financial Literacy Programs
6. Case Studies on Successful Investor Awareness Campaigns
7. Future Directions for Investor Protection and Regulatory Policies

B. Vijaya Kumar
PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI, IBRAHIMPATNAM, VIJAYAWADA-521456

Outcome of Program

The students and the Faculty Members developed a comprehensive understanding of the importance of investors' awareness in financial markets and Identification of effective communication strategies for educating and engaging investors through the One Day Seminar on “Enhancing Investors’ Awareness and the Role of Regulators: A Research Perspective ”

They gained knowledge on:

1. The importance of investors' awareness and its impact on financial markets.
2. the responsibilities of regulators in safeguarding investors' interests.
3. Insights into research findings regarding investors' awareness levels and the effectiveness of regulatory practices.
4. Awareness of effective communication strategies for educating and engaging investors.
5. The significance of financial literacy programs in empowering investors.
6. The case studies showcasing successful investor awareness campaigns and their outcomes.
7. The emerging trends and future directions for investor protection and regulatory policies.

ABOUT COLLEGE

NCET a self-financed institution, was established by Nimra Educational Society in the year 1997. The College is situated on the main NH 09 (Vijayawada- Hyderabad Highway), just 17 KM away from the traditional city - Vijayawada in Andhra Pradesh. NCET is affiliated to Jawaharlal Nehru Technological University, Kakinada, and approved by All India Council for Technical Education (AICTE), New Delhi. NCET is recognized and known as the best college for engineering education in Coastal Andhra. The College provides its students with modern educational facilities while retaining traditional values, as well as using its strong industrial contacts to mould young, talented individuals who can compete in the global arena. In an intensely competitive environment, the college has adopted a dynamic, global, high-quality, creative and communicative approach in education. The college aims at imparting high quality excellent education in Engineering and Technology to all categories of students

PROGRAM REPORT

Program Name	A One Day Workshop on Entrepreneurship And Innovation as Career Opportunity
Resource Person	Mr. Chandra Sekhara Rao
Date of Activity	29/12/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

The Workshop on Entrepreneurship and Innovation as Career Opportunity aims to create awareness about entrepreneurship and innovation as viable career options. It enhances participants' knowledge and skills in these areas. It fosters an entrepreneurship mindset, explores career opportunities, provides guidance and mentorship, facilitates networking and collaboration, inspires innovation and disruption, and equips participants with practical tools and resources. The workshop seeks to empower individuals with the necessary knowledge, skills, and mindset to pursue entrepreneurial and innovative career paths.

Topics Covered:

1. Opportunities available in the field of Entrepreneurship and Innovation
2. In-depth knowledge and practical insights into the concepts, strategies and tools
3. Cultivate Entrepreneurship mindset among participants through creativity, critical thinking and problem-solving abilities.
4. Showcase the diverse career opportunities in Entrepreneurship and Innovation
5. Provide guidance and mentorship from experienced entrepreneurs and industry experts
6. Networking and Collaboration
7. Inspire Innovation and Disruption
8. Provide Practical Tools and Resources

PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI, IBRAHIMPATNAM, VIJAYAWADA-521456

Outcome of Program

The students and the Faculty Members learned the different opportunities available for career building through the workshop on “Entrepreneurship and Innovation for Career Opportunities”.

They gained knowledge on:

1. Benefits and challenges associated with Entrepreneurship and Innovation
2. Developing Innovative ideas and navigating the entrepreneurial ecosystem.
3. Business Planning, Market Analysis, Financial Management and other key aspects of Entrepreneurship and Innovation.
4. Practical Application in real-world scenarios.
5. Innovative solutions, successful ventures and contribution to economic growth and societal development.
6. Necessary skills, knowledge, mindset, and network to embark on entrepreneurship and innovative career paths.

PROGRAM REPORT

Program Name	“Mobile Computing & It’s application: Exploring Research & Advancements”
Resource Person	Mrs. M. Kiran Mai
Date of Activity	08/12/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

One Day Seminar on “Mobile Computing & its application: Exploring Research & Advancements”. Educating participants on the history and evolution of mobile computing as a field of research and design. Providing an overview of the characteristics required for realizing a mobile wireless computing environment. Besides discussing recent advances in mobile computing and disconnected operation and encouraging participants to explore new ideas and applications in mobile computing and to contribute to the growth and advancement of the field.

Topics Covered:

- Introduction to mobile computing: Definition, history, and evolution of mobile computing as a field of research and design.
- Characteristics required for realizing a mobile wireless computing environment.
- Recent advances in mobile computing and disconnected operation.
- Capabilities of mobile hardware and networking technology and their applications in m-learning.
- Impact of mobile computing devices on higher education teaching and learning. Challenges and opportunities in mobile computing, including security, privacy, and usability.
- New ideas and applications in mobile computing and their contribution to the growth and advancement of the field.
- Uses and effects of mobile computing devices in K-8 classrooms

Outcome of Program:

The students and the Faculty Members gained a deeper understanding of the concept of a smart campus and the potential benefits it offers to educational institutions through the Seminar on “Mobile Computing & It’s application: Exploring Research & Advancements”.

They gained knowledge on:

- Increased awareness and understanding of the latest advances in wireless communication technologies and their impact on society.
- Knowledge of the characteristics required for realizing a mobile wireless computing environment.
- Understanding of recent advances in mobile computing and disconnected operation.
- Knowledge of the capabilities of mobile hardware and networking technology and their applications in m-learning.
- Understanding of the impact of mobile computing devices on higher education teaching and learning.
- Understanding of the parallel developments between the growth of m-learning and the growth of mobile computing.

Venue	NCET seminar hall

Objectives of the program:

The objective is to provide participants with a comprehensive understanding of intellectual property protection and registration for social media influencers and content creators. The seminar would help participants understand the importance of registering their creative work and avoiding any legal concerns related to intellectual property rights. The objective of the seminar on IP for social media influencers and content creators is to provide a platform for influencers and creators to understand the importance of intellectual property (IP) protection and registration.

Topics covered:

- 1) Introduction to intellectual property (IP) and its importance in social media content creation.
- 2) Different types of IP, including copyright, trademark, and patent, and how they apply to social media content creation.
- 3) The importance of registering IP to establish ownership and enforce rights in case of any dispute.
- 4) Case studies of IP disputes in social media and how they were resolved

K. Phani Kumar

PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI, IBRAHIMPATNAM, VIJAYAWADA-521456

Outcome of the program:

As a result of attending the students and the Faculty Members equipped with the knowledge and tools necessary to effectively protect and manage their intellectual property. They will gain a clear understanding of copyright, trademark and patent laws, enabling them to safeguard their creative works and brand identities from infringement through the One Day Seminar on -"IP for social media influencers and content creators".

They gained knowledge on:

1. Understanding of the different types of intellectual property, including copyright, trademark, and patent, and how they apply to social media content creation
2. Importance of registering IP to establish ownership and enforce rights in case of any dispute
3. How to avoid using IP in a way that may create confusion in the minds of the customers concerning the source of the content
4. Different ways to protect digital content, including watermarking, licensing, and monitoring.
5. Legal concerns and complexities surrounding intellectual property rights on social media

ABOUT COLLEGE

NCET a self-financed institution, was established by Nimra Educational Society in the year 1997. The College is situated on the main NH 09 (Vijayawada- Hyderabad Highway), just 17 KM away from the traditional city - Vijayawada in Andhra Pradesh. NCET is affiliated to Jawarharlal Nehru Technological University, Kakinada, and approved by All India Council for Technical Education (AICTE), New Delhi. NCET is recognized and known as the best college for engineering education in Costal Andhra. The College provides its students with modern educational facilities while retaining traditional values, as well as using its strong industrial contacts to mould young, talented individuals who can compete in the global arena.

In an intensely competitive environment, the college has adopted a dynamic, global, high-quality, creative and communicative approach in education. The college aims at imparting high quality excellent education in Engineering and Technology to all categories of students

PROGRAM REPORT

Program Name	One Day Seminar on “Entrepreneurship and Human Resource Development for 21 st Century”
Resource Person	Mr. Abhi
Date of Activity	09/11/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

1. The Seminar One Day Seminar on “Entrepreneurship and Human Resource Development for 21st Century” explores the relationship between entrepreneurship and human resource development in the context of the 21st century. It depicts the importance of fostering an entrepreneurial mindset and skills in individuals and organizations. Along with Current trends and challenges in entrepreneurship and human resource development it throws light on Practical knowledge and strategies for effective entrepreneurship and human resource development.

Topics Covered:

1. Identifying entrepreneurial opportunities in the current business landscape
2. Understanding the role of human resources in entrepreneurial success.
3. Building an Entrepreneurial Mindset
4. Effective communication and negotiation skills.
5. Addressing common challenges faced by entrepreneurs.
6. Implementing performance management systems for entrepreneurial ventures.

PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI, IBRAHIMPATNAM, VIJAYAWADA-521456

Outcome of Program

The students and the Faculty Members increased their awareness and understanding of the significance of entrepreneurship and human resource development in the 21st century. They Enhanced knowledge of the skills, mindset, and competencies required for successful entrepreneurship and improved understanding of the role of human resource development in supporting entrepreneurial endeavours through the One Day Seminar on “Entrepreneurship and Human Resource Development for 21st Century”.

They gained knowledge on:

1. Understanding the key concepts and principles of entrepreneurship in the 21st century.
2. The skills and competencies required for entrepreneurial success.
3. The Insights into the role of human resource development in supporting entrepreneurial endeavors.
4. Strategies for fostering an entrepreneurial mindset and culture within organizations.
5. Awareness of current trends, challenges, and opportunities in entrepreneurship and human resource development.
6. Tools for effective financial management and securing funding for start-ups.
7. Networking opportunities with experts and peers in the field of entrepreneurship and human resource development.

Program Name	One Day Seminar on Role of Police in IP Rights Enforcement
Resource Person	Mr. A. Mani
Date of Activity	22/10/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	CSE Class Room, NCET

Objectives of the Program:

The objective of the "One Day Seminar on Role of Police in IP Rights Enforcement" Understand the significance of international property rights: Introduce participants to the concept of international property rights and the importance of protecting intellectual property, trademarks, patents, and copyrights at an international level.

Topics Covered:

1. Economic and social implications of protecting intellectual property rights
2. Overview of the specific role of police in protecting international property rights
3. Investigation techniques and strategies for identifying intellectual property infringements
4. Success stories and case studies highlighting effective enforcement efforts
5. Examination of successful investigations and prosecutions
6. Best practices in evidence collection, surveillance techniques, and digital forensics
7. Ethical implications associated with enforcing international property rights
8. The role of police in protecting international property rights

PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY

Date: 18/9/2021

PROGRAM REPORT

Program Name	“Advancements in composite materials and polymers : Exploring Research Frontiers”
Resource Person	Mr. K. Dasaradh Ram
Date of Activity	16/9/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

One Day Seminar on “Advancements in composite materials and polymers : Exploring Research Frontiers” cover a range of topics, including advances in fabrication and processing of composite materials, micro- and nano-structural characterization of polymers and composites, novel composite architectures, interphase engineering, rheology control of polymeric and composite materials, manufacturing of composite structures, in-service performance of polymeric and composite materials and their durability, and functionally graded and multi-functional polymers and composites. Additionally, the seminar could emphasize the importance of interdisciplinary approaches and team efforts to address fragmentation between polymer science and other technical areas.

Topics Covered:

1. Publishing high-quality applied and fundamental research covering traditional and novel polymeric and composite materials with advanced engineering applications.
2. Conducting fundamental scientific and industrial-oriented research in the area of polymeric and composite materials focusing on polymer composite materials, innovative technologies, and manufacturing processes.
3. Maximizing the desirable traits of each constituent material while suppressing their inferior properties.
4. Identifying national research and educational challenges and delineating the corresponding funding priorities needed for planning by funding agencies.

S. Srilakshmi

PROGRAM COORDINATOR

Outcome of Program

The students and the Faculty Members gained a deeper understanding of the concept of a smart campus and the potential benefits it offers to educational institutions through the Seminar on A One Day Seminar on “Advancements in composite materials and polymers : Exploring Research Frontiers”

They gained knowledge on:

1. The seminar could lead to the discovery and design of materials for future applications.
2. Exploration of the potential impact of quantum technology on the cyber squatting landscape, including the threats and opportunities presented by these technologies.
3. The seminar could emphasize the importance of interdisciplinary approaches and team efforts to address fragmentation between polymer science and other technical areas.
4. The seminar could also lead to advancements in the manufacturing processes of polymer composite materials and innovative technologies

NIMRA COLLEGE OF
ENGINEERING & TECHNOLOGY

**NIMRA COLLEGE
OF ENGINEERING
AND TECHNOLOGY**

ABOUT COLLEGE

NCET a self-financed institution, was established by Nimra Educational Society in the year 1997. The College is situated on the main NH 09 (Vijayawada- Hyderabad Highway), just 17 KM away from the traditional city - Vijayawada in Andhra Pradesh. NCET is affiliated to Jawaharlal Nehru Technological University, Kakinada, and approved by All India Council for Technical Education (AICTE), New Delhi. NCET is recognized and known as the best college for engineering education in Costal Andhra. The College provides its students with modern educational facilities while retaining traditional values, as well as using its strong industrial contacts to mould young, talented individuals who can compete in the global arena. In an intensely competitive environment, the college has adopted a dynamic, global, high-quality, creative and communicative approach in education. The college aims at imparting high quality excellent education in Engineering and Technology to all categories of students

**ONE DAY SEMINAR ON
"ADVANCEMENTS IN
COMPOSITE
MATERIALS AND
POLYMERS :
EXPLORING RESEARCH
FRONTIERS**

Programme Schedule

16/09/2021

ORGANIZED BY

NIMRA COLLEGE OF
ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI,
IBRAHIMPATNAM, VIJAYAWADA-
521456

Courses Offered:

B-TECH:

- Civil Engineering
- Electronics & Communication
- Engineering
- Electrical & Electronics Engineering
- Mechanical Engineering
- C.SE,C.S.E(AILM,DS)

M-TECH

- Computer Science & Engineering
- VLSI System Design
- CAD/CAM
- Power Electronics

PG

MBA
MCA

OBJECTIVES OF THE PROGRAM:

One Day Seminar on "Advancements in composite materials and polymers : Exploring Research Frontiers" cover a range of topics, including advances in fabrication and processing of composite materials, micro- and nano-structural characterization of polymers and composites, novel composite architectures, interphase engineering, rheology control of polymeric and composite materials, manufacturing of composite structures, in-service performance of polymeric and composite materials and their durability, and functionally graded and multi-functional polymers and composites. Additionally, the seminar could emphasize the importance of interdisciplinary approaches and team efforts to address fragmentation between polymer science and other technical areas.

R.K.College of
Engineering,
Kethanakonda, Andhra
Pradesh,

LAST DATE TO REGISTRATION

15/09/2021

Topics

1. Publishing high-quality applied and fundamental research covering traditional and novel polymeric and composite materials with advanced engineering applications.
2. Conducting fundamental scientific and industrial-oriented research in the area of polymeric and composite materials Focusing on polymer composite materials, innovative technologies, and manufacturing processes.
3. Maximizing the desirable traits of each constituent material while suppressing their inferior propertie.
4. Identifying national research and educational challenges and delineating the corresponding funding priorities needed for planning by funding agencies.

Venue

Seminar Hall, NCET

PROGRAM REPORT

Program Name	Optical Fiber Communication: Advancements ,Challenges, and Future Directions-A Research Perspective
Resource Person	Mr. V. Mohan
Date Of Activity	05/03/2021
Organized by	Nimra college of Engineering and Technology
Venue	NCET Seminar Hall

Objectives of the program:

The seminar aims to provide participants with a comprehensive understanding of the latest research advancements in the field of optical fiber communication systems and their applications in various industries. Participants would gain knowledge on the recent trends and advancements in wireless and optical fiber communication networks, the research challenges in optical communications towards 2020 and beyond, and the principles and practice of optical fiber communication. They would also learn about the applications of optical fiber sensors and sensing networks in measuring physical parameters and the future directions for research and development efforts directed towards future photonic technology.

Topics covered:

1. Recent trends and advancements in wireless and optical fiber communication networks
2. Research challenges in optical communications towards 2020 and beyond
3. Applications of optical fiber sensors and sensing networks in measuring physical parameters like temperature, pressure, and strain
4. Future directions for research and development efforts directed towards future photonic technology

B. Bhagyalakshmi
PROGRAM CORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY
NIMRA NAGAR, JUPUDI, IBRAHIMPATNAM, VIJAYAWADA-521456

Outcome of the program:

The students and the Faculty Members gained knowledge in recent innovative trends in wireless and optical fiber communication networks through the one day seminar on Optical Fiber communication: Advancements, Challenges, and Future Directions-A Research Perspective

They gained knowledge on:

1. An overview of the recent trends and advancements in wireless and optical fiber communication networks
2. An understanding of the research challenges in optical communications towards 2020 and beyond
3. Principles and practice of optical fiber communication, including the design, fabrication, reliability, and testing of optical fibers and fiber cables
4. Applications of optical fiber sensors and sensing networks in measuring physical parameters like temperature, pressure, and strain
5. Future directions for research and development efforts directed towards future photonic technology

B. Bhayalash

PROGRAM REPORT

Program Name	“Advancement in Technology and their Implications of Entrepreneurship”
Resource Person	Mr. V. Suresh
Date of Activity	15/02/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

One Day Seminar on “Advancement in Technology and their Implications of entrepreneurship” aim to provide participants with the knowledge, skills, and mindset needed to navigate the challenges and opportunities presented by technological advancements in entrepreneurship. Participants could gain knowledge of the latest research on the topic, and have the opportunity to network with other professionals in the field.

Topics Covered:

1. Networking opportunities for participants to network with other entrepreneurs, technology experts, and researchers in the field
2. Providing a research perspective on the topic, including the latest research on technology and entrepreneurship, and the implications of this research for the future of entrepreneurship.
3. Identifying the implications of technology on entrepreneurship
4. Developing entrepreneurial skills
5. Understanding the impact of technology on entrepreneurship including the challenges and opportunities presented by technological advancements.

PROGRAM COORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY

Outcome of Program

The students and the Faculty Members gained a deeper understanding of the concept of a smart campus and the potential benefits it offers to educational institutions through the Seminar on A One Day Seminar on “Advancement in Technology and their Implications of entrepreneurship”

They gained knowledge on:

1. Increased motivation and confidence: Participants could gain motivation and confidence to pursue their entrepreneurial goals, knowing that they have the knowledge, skills, and mindset needed to navigate the challenges and opportunities presented by technological advancements in entrepreneurship.
2. Networking opportunities: The seminar could provide opportunities for participants to network with other entrepreneurs, technology experts, and researchers in the field.
3. Exposure to the latest research on technology and entrepreneurship: The seminar could aim to provide a research perspective on the topic, including the latest research on technology and entrepreneurship, and the implications of this research for the future of entrepreneurship.
4. Enhanced entrepreneurial skills: The seminar could aim to develop entrepreneurial capacities and mindsets, including innovation, creativity, and adaptability to technological changes.

PROGRAM REPORT

Program Name	“Role and Importance of IPR for students and New Inventors”
Resource Person	Mrs. K. Jai Sai Lakshmi
Date of Activity	11/01/2021
Organized by	Nimra College Of Engineering And Technology (NCET)
Venue	Seminar Hall, NCET

Objectives of the Program:

One Day Seminar on “Role and Importance of IPR for students and New Inventors” Educating students and new inventors on the importance of IPR in protecting their ideas and inventions. Providing information on the different types of IPR, such as patents, trademarks, and copyrights. Teaching students and new inventors how to apply for and obtain IPR protection. Helping students and new inventors understand the legal implications of IPR infringement and how to enforce their rights.

Topics Covered:

1. Introduction to IPR: Definition, types, and importance of IPR in protecting ideas and inventions.
2. IPR and innovation: The role of IPR in enhancing the competitiveness of technology-based enterprises, commercializing new or improved products, and providing services based on new or improved technology.
3. IPR and research and development: The importance of IPR in protecting investments in innovation, particularly in the university research community.
4. IPR and higher education: The potential pool of talent for innovation in emerging economies emanates largely from educational institutions and research institutions. A transparent research and development system should be in place in the universities to avoid discrepancies.
5. Benefits of IPR: The primary function of IPRs is to protect and stimulate the development and distribution of new products and the provision of new services based on the creation and exploitation of inventions, trademarks, designs, creative content, or other intangible assets.

PROGRAM CO-ORDINATOR

NIMRA COLLEGE OF ENGINEERING & TECHNOLOGY

Application to be submitted online in the above format along with the scanned copy of the registration form

Resource Person

**Mrs. K. Jai Sai Lakshmi
Asst Prof Gowtham
college, Vijayawada**

Topics

1.	Introduction to IPR: Definition, types, and importance of IPR in protecting ideas and inventions
2.	IPR and innovation: The role of IPR in enhancing the competitiveness of technology-based enterprises, commercializing new or improved products, and providing services based on new or improved technology.
3.	IPR and research and development: The importance of IPR in protecting investments in innovation, particularly in the university research community.
4.	IPR and higher education: The potential pool of talent for innovation in emerging economies emanates largely from educational institutions and research institutions. A transparent research and development system should be in place in the universities to avoid discrepancies.
5.	Benefits of IPR: The primary function of IPRs is to protect and stimulate the development and distribution of new products and the provision of new services based on the creation and exploitation of inventions, trademarks, designs, creative content, or other intangible assets.
